DEATHS AND ACCIDENTS.

Supposed Death of Valentine Schnaider. Valentine Schnaider, living on Hillside avenue, above Ninth street, died suddenly yesterday morning, from what is supposed to be strychnine poisoning. Five months ago his wife died, and since that time he has suffered from mental derangement. Yesterday morning he was taken suddenly sick while mowing in his yard, and died soon after Dr. Culbertson was called. The coroner will hold a post-mortem examination this morning.

Death from Heart Disease, The wife of Christian Weiss, living at No. 574 West Washington street, dropped dead from heart disease, last night at 9 o'clock. She was in her usual health during the early evening. and attended to her household duties. She had been subjected to attacks of heart trouble for some time.

Mrs. William Merrick, living at No. 89 Dar-nell street, died suddenly of heart disease last night at 10 o'clock. A few minutes before her death she returned from a grocery in the neighborhood, and appeared to be in the best of health. She was preparing to retire when she fell forward in her chair dead.

Dragged from a Load of Hay. William Reed, a farmer from near Plainfield, was seriously injured last night by being dragged off a load of hay while driving into a livery stable on West Washington street. One arm was broken, his lower limbs were badly sprained, and it was feared he had suffered internal injuries. He was removed to the room of a sister who lives in the Iron Block.

Slight Flesh Wound.

Hugh Barber, a young colored man, was accidentally shot in the leg last evening, at Brighton Beach. Morris Schrader was exhibiting a revolver to a crowd of youths when Barber jokingly undertook to jerk it from his hand. In the ef-fort it was discharged. Barber was removed to the City Hospital for treatment. The ball only passed through the flesh, and the wound is not

MEN LEARNED IN MEDICINE

In the State Society They Tell What They Know of Diseases and Practice.

Routine Business, Professional Papers and General Discussion-Good Cheer at the Banquet Table at the New Denison.

The Indiana State Medical Society, having a nembership of over one thousand, began its thirty-ninth meeting, in Plymouth Church, yesterday morning. The attendance from every portion of the State is unusually large, and the interest in the various papers read, and in the proceedings in general, has been very gratifying. The officers of the association are: president, Dr. S. H. Charlton, of Seymour; vice president, Dr. C. W. Burket, of Warsaw; secretary, Dr. E. S. Elder, of this city; assistant secretary, Dr. John Nixon, of Farmland; treasurer, Dr. C. B. Higgins, of Peru. The early part of the morning was spent in the transaction of the regular yearly business of the convention, such as the appointment of committees and hearing of reports. Dr. Elder, the secretary, in referring in his report to the growth and strength of the society, said: "At the time of our last meeting, fifty-four auxiliary societies had reported 839 members, fifteen societies reported 305 additional members, making a total of 1,144 paying members, and sixty-nine auxiliary societies for '87, a gain of two societies and five paying members. During the past year especial attention has been given to the organization of new societies, in counties heretofore unrepresented, and the reorganization of old ones. We now have upon our roll seventy-four county societies, and 1,200 contributing members. Fiftythree auxiliary societies have reported a present membership of 764, a net gain of 14. The mortality list includes nineteen, including one expresident of the society."

The treasurer, Dr. C. B. Higgins, of Peru, reported that the total receipts for the year were \$1,266.63, and that the balance in the treasury at the present time was \$270.36. The committee on arrangements, however, reported an expense of \$125.97. The following papers were read before the convention at its morning session: Dr. George Rowland, of Covington, "Is Craniotomy Legally or Morally Justifiable?" Dr. H. O. Pantzer, Indianapolis, "Exophthalmic Goitre;" Dr. G. C. Smythe, Greencastle, "Acute

Articular Rheumatism." The first paper in the afternoon was one by Dr. L. N. Davis, of Farmland, on "The Progress and Practice of the Country Doctor." He said progress in medicine was the watchword of the day with physicians. Empericism has led to many blunders in the past and may be committing many at present, for it still holds an important place in the practice of medicine. The recent application of the forces of nature in investigation and in the centralization of human thought and effort has greatly increased the facilities for advance in every science. He then discussed the surroundings of the coun-try doctor, showing how all avenues of information at the present time, are open to him, but he claimed that book ability did not always win in country practice. Experience taught that such is not always tantamount to professional prosperity in his business. His work was a humdrum labor, surrounded with many diffi-culties, causing him to fall behind in the recent progress of his profession. The speaker's paper was of considerable length, and was discussed warmly at its close, especially some valuable statistical information which it contained.

The committee on credentials reported that it had examined the constitutions of Davis, Shelby, Orange, Parke, Greens and Fulton county medi-cal societies and found them in accord with the constitution of the State society. It therefore recommended that they be received into mem-

Dr. T. B. Harvey, of this city, then read one of the most interesting and able papers of the meeting so far. He is eminent as a specialist, and his paper was in the line of his chosen work. It called forth considerable discussion and was highly commended by several members of the

Dr. Walker Shell, of Spencer, then read a brief paper on "Gastrostomy for the relief of mesophageal stricture with a report of a case."
The case reported was one that came under Dr.
Shell's treatment about a year ago, where a
little child, three and half years old, had swalowed some concentrated lye some time before, causing a narrowing in the passage to the stom-ach so that a small cherry seed was caught in it, which caused the patient's death. Dr. Shell described the operation performed in the case, showing that treatment should be applied at once and not defer the surgical operation longer than eighteen or twenty-four hours at furthest.

than eighteen or twenty-four hours at furthest.

This was an uncommon case and for that reason was a very interesting one to the convention.

Dr. Wagner followed with a paper on "Hyponitism," in which he said that it was his purpose to prove that so-called mesmerism was not a myth. He described first the means of producing mesmerism, and said that he had never failed in but one or two cases out of 150. He then went into a scientific explanation of the phenomenon of considerable length. He was followed by Dr. W. T. Bateman with a paper on "Choose, after which the society adjourned un-"Choers, after which the society adjourned un-

In the evening there was a large audience present to hear President Chariton's address. The first business of the evening was the reading of the nominating committee. After this had been completed Dr. Charlton was introduced, and said thirty-nine years ago the fathers in medicine organized this society with only thirty members, six of whom remain to-day. This society has, since then, grown to a membership of 1,200. He then spoke of the early history of the profession in the State, of the hardships encountered by early physicians, of the limited library and scientific appliances of the doctors of that time. Discussing medical education, he thought physicians ought to reject students who are not sufficiently prepared. Medical societies are responsible for the poor men who get into the profession. He spoke also of the entrance of women into the profession, and commended their work. The fact that the practice of medicine was now going hand in hand with Christian missionaries in evangelizing the world was also touched on, the speaker regarding this as one of the chief glories of the art. He discussed the slow advance of the profession in remote ages and contrasted it with the rapid advance of the present. The difference, though, was not so much on account of brain superiority as in greater opportunities. Speaking of the State society he said it was responsible for the present Board of Health and all the organizations of that kind in the State. He urged a greater development in this field and advocated a thorough teaching of anatomy in the public schools. In conclusion, he spoke of the work of the past year and expressed a hope for the future good of the so-

At the Banqueting Board. Last evening the State society was banqueted by the Marion County Medical Society. Promptly after President Charlton had completed his address the society adjourned to the New Denison House, marching over in a body, where they were entertained until the wee small hours of the morning at one of the finest spreads ever given in the city. The large assemblage filed into the New Denison spacious dining-hall at 10:25 o'clock, while Miller's orchestra dispensed sweet strains, and for four hours the doctors sat and partook of a luxurious feast and listened to a number of crispy, witty and entertaining responses to toasts. It was the finest banquet ever given in Indianapolis, more than 500 members partaking of the hospitality of the Marion County Medical Society. The menu included everything that one could wish. Like the Roman feast, there was nothing wanting. Everything from blue points on half-shell to cigars; from strawberries and cream to Roman punch, was on the festal board. The large dining-hall was filled to overflowing with guests, and everyone enjoyed himself to the highest degree. A number of distinguished visitors were present, en-

county society and the committee on arrange-ments were indefatigable in their attentions, even to the slightest detail, and everything passed off in a manner most enjoyable to every guest and most satisfactory to the hosts of the When the tables had cleared, at 12:30 A. M., the followtoasts were responded to, J. L. Thompson acting as symposiarch. "Our Gnests," Mayor C. S. Denny; "The Indiana State Medical Society," President S. H. Charlton, Seymour; "The American Doctor," W. H. Wathon, M. D., Louisville, Ky.; "Medical Education in the West," Edwip R. Lewis, M. D., Crawfordsville; "The Law," Hon. A. G. Porter; "The Clergy. Rev. James McLeod; "The Doctor in Literature," James Newton Matthews, M. D., Mason, Itl.; "Doc Sifers," James Whitcomb Riley; "The Doctor a Humanitarian," L. H. Dunning M. D., South Bend; "Our Preceptors," Isaac

On the whole, the occato be remembered by the visiting brethren, as well as by the society here. The committee on arrangements invited Bill Nye to be present. The following telegram was received yesterday by the committee:

It gives me pain not to be with you. I hope the nembers of your association will continue to take When this was read at the table it won a

A PROGRESSIVE SECRET ORDER.

The Knights of Pythias Considering Their Affairs in Grand Lodge Session.

The Grand Lodge room of the order of Knights of Pythias in the Talbott Block was too small to accomodate all the delegates who attended the twentieth annual session of the lodge, yesterday. This fact renewed the talk of the erection in the near future of a magnificent K. of P. building in this city, in which will be established the State headquarters of the growing order. When Grand Chancellor Heiskell called the meeting to order at 9 o'clock yesterday morning there were over 300 delegates pressent, representing nearly every county and town, of any size, in the State. The session was opened with an address of welcome by Mayor Denny, who is a member of the order, and of the Uniform Rank. He complimented the order upon the character of men it was admitting, and spoke of its growth all over the State, especially in this city, which has eight lodges, four uniform ranks and a total membership of over 1,500. Indiana, he said, has more uniform ranks than any other State in the Union. In concluding he

col. S. P. Oyler, of Franklin, in response, Indianapolis, where they received such royal treatment. He, too, spoke of the rapid growth of the order throughout the State, and bespoke

for it a very successful future. The routine business was taken up, and the annual reports of the grand chancellor, grand keeper of records and seals, grand master of ex-chequer, embracing the facts as printed in the Journal yesterday morning, were read and referred to the proper committees. In accordance with the recommendation of the grand chancellor, the rank of past chancellor was conferred upon Brig.-Gen. James R. Ross, of the Uniform Rank of Indianapolis, on account of the excellent work he has done in behalf of the rank, and upon R. C. Holland, who has been host master of the Grand Lodge ever since its organization.

The election of officers consumed all afternoon, and resulted os follows:

Grand Chancellor-John Russell, of No. 49, Lawrenceburg. Grand Vice-chancellor-Judge J. C. Suit, No. 71 Frankfort.

Grand Prelate—A. C. Hawkins, No. 23. Evansville.

Grand Master of Exchequer—D. B. Shideler, In-

lianapolis. Grand Keeper of Records and Seal-Frank Bowers, Grand Master-at-arms-A. G. Pirtle, No. 17, Co-

The grand chancellor, the grand vice-chancellor and the grand keeper of records and seal were elected by acclamation. It was the third time Mr. Bowers had been elected to the last-named position. The most interesting contest was over the election of a grand master of exchequer. There were two candidates, C. F. S. Meal, of Lebanon, and D. B. Shideler, of Indianapolis. Of the 290 votes east Mr. Shideler

received five more than his competitor.

Following the election of officers the pictures of quite a number of distinguished men in the order, including those of Major-general Jas.
R. Carnahan and P. C. Shively, of Richmond,
were presented to the lodge and ordered hung
in the Grand Lodge Hall. An action satisfactory
to Grand Chancellor Heiskell was the indorsement of all his official acts without even a discussion. Last night the Grand Lodge was entertained by Indianapolis Lodge, No. 7, with an exemplifiation of the amplified third degree. The Grand Lodge will meet again this morning at 9 c'clock, and expects to complete its work before noon. The installation of the newlyelected officers will occur this afternoon.

Objecting to Assessment.

The County Commissioners vesterday considered the petition for the building of a free gravel road from the Hamilton county line to Millersville, there to connect with the Fall Creek gravel road. The assessment was made some ago, on an estimated cost of \$4,100. It will be three and one-half miles in length. A remonstrance signed by nine of the one hundred and five land-owners assessed was presented, and their statement was heard. They objected to being assessed because they lived off the road and would receive no benefits from it. The board decided to go ahead with the work; but will order a reassessment, with the view of putting no one to an expense who will not be directly benefited.

Will Extend Its Operations.

The stockholders of the Broad Ripple Naturalgas Company met at the office of the company. yesterday afternoon, and elected the following directors for the ensuing year: Frank Maus, Omer Boardman, J. M. Wescott, Omer Hollingsworth and Burton J. Wescott. The capital stock of the company was increased from \$100,-000 to \$1,000,000, and it was decided to extend the field of supply, and put in another main line to Indianapolis. "The increased capital stock is for safe," said Secretary Maus last night. "Some of it will be taken by the present stockholders, but we invite outsiders to invest. Our intention is to have the second trunk-line completed before cold weather."

Suspended Track Laying.

City Attorney Taylor yesterday morning notified the Dudiey Cable Road Company that it had no right under its charter to put down a track over which cars with electric motors were to be run, and asked that further work be suspended until the Council acted on the amendment to the original ordinance presented to the Council at its Mon-day night's meeting. The company agreed to obey the request, but the privilege was given to complete the two squares of track on which work had been done. Therefore, after to-day work will be suspended on the line for the

A Railroad Projected.

Articles of association of the Elkhart & Western Railway Company were filed with the Secretary of State yesterday. The road will be constructed from Elkhart to South Bend, a distance of eighteen miles. The capital stock of the company is \$300,000, the board of directors being Herbert E. Buckien, James R. Beardsley, Justus L. Broderick, Emanuel C. Biekel, Wm. J. Davis, Charles H. Winchester and Strafford

Contractor for the Amphitheater. The executive committee of the State Fair

Association yesterday awarded the contract for building the amphitheater at the fair grounds to Seward & Co., of Bloomington, Ind., who bid \$8,740. There were ten bidders. The litho-graph posters, advertising the fair, are out of press, and are quite handsome. They are much like those used last year, the difference being mostly in coloring.

Looking for an Epidemic of Measles. The city Board of Health has fears that measles is going to become an epidemic again, new cases coming in at a very lively rate the last few days. They are nearly all in the north-eastern part of the city. But few deaths, how-ever, have been reported.

Mr. Cleveland Shows His Wife's Letter.

The President is excessively annoyed over the sly references published in a Washington paper to stories that have been circulated for months past instructing that his domestic life had been unhappy. To show how senseless and baseless such charges are, yesterday he showed to a friend a letter from his wife from Philadelphia, which abounded in most endearing sentences.

I Told You So.

Brown-You don't look very happy, Robin-Robinson-No. I left off my flannels this morning, and caught cold. Brown-That's bad.
Robinson--Oh. I don't care anything about the cold, but my wife told me I was leaving them

25 North Pennsylvenia street

AN ACCOUNT OF THEIR WORK

Ladies of the Episcopal Church Auxiliary Review What They Have Done.

Bishop Knickerbacker Gives an Encouraging Report of Diocesan Progress in Schools, Charities and Creation of New Churches.

The semi-centennial convention of the Diocese of Indiana began in Christ Church, yesterday morning. This is in the nature of a jubilee, and is a meeting that marks an epoch in the history of the Episcopal Church in Indiana. The morning and afternoon were occupied with a meeting of the Woman's Auxiliary of the diocese. After the celebration of holy communion Rev. Frank Hallam, of Richmond, preached the sermon of the meeting. He was followed by an address of welcome by the Bishop. Annual reports of woman's parish work and Woman's Auxiliary were then read by Miss Emily L. Upfold. Thirteen societies reported contributions aggregating \$1,360.77; thirty-two parishes contributed \$1,115.54 for woman's parochial work. The membership of workers is 1,084. In the afternoon papers were read, one on "Woman's Work in Foreign Fields," by Mrs. G. H. Chapman; one on "Woman's Work for Domestic Missions," by Mrs. Wm. Willson, of Florids, and one on "Christian Education," by Mrs. James Lyon. This was followed by the reading of missionary letters and the presentation of work for the coming year, which closed the business of the convention for the afternoon

In the evening Bishop Knickerbacker delivered his fifth annual address to the diocese. He referred briefly to the fact of this being the semi-centennial convention, and paid a fitting tribute to his predecessors in the episcopate, Bishops Kemper, Upfold and Talbot, and to the pioneer clergy and laity. He said it is well to note these way-marks in the history of the church, to pause to recite the story of past trials and achievements and to derive from them helpful lessons to guide efforts in carrying forward the work so auspiciously begun. It is well to set apart a day, as it is proposed to do on Thursday, to consider the former days, to tell over again the story of the past, to gather together again the story of the past, to gather together the records of its conquests for the benefit of all who shall come after. A brighter day is dawning for the beloved Zion in Indiana. The struggles and wartare of the past-have prepared the way for glorious triumphs in the future. The day of small things is giving place to greater and more rapid progress in the future.

"The sons and daughters of the church appreciate more and more," he continued, "the great responsibility devolving upon them. They have a grand and glorious heritage. Situated as we are in the midst of 2,000,000 souls. With natural and material resources that place we among the

and material resources that place us among the foremost commonwealths of our great country, with a people steadily improving in intelligence and culture, there is a magnificent work for the church to do. The time is steadily approaching when our diocese shall have those educational and benevolent institutions that shall exert a power for good in the civilization and elevation of our State, such as hospital and orphanage, home for the aged and friendless, founded to provide for Christ's helpless and afflicted ones in His name. May we not hope that more and more, as the years roll on, the church's children, to whom God has entrusted wealth and earthly substance, will realize their stewardship and con-tribute of their wealth for God and His church.

Brothers of the clergy and the laity, let us labor together earnestly, perseveringly and hopefully for the end. Let us take fresh courage from the story of the past and press forward with renewed zeal to diffuse abroad a healthful Christian civilization that shall bring forth fruit in elevating the moral character of our whole people and repressing vice and im-

morality, now all too prevalent.

"In the work of our own diocese we have had an encouraging year. Our missionary offerings have been liberal and in advance of the standard of previous years, enabling the missionary board to give aid to thirteen missionaries, caring for twenty-nine stations. We have received thirteen clergymen and transferred ten to other dioceses. We have five candidates for the ministry, where last year we had two. We have built the many war five church buildings. or secured the past year five church buildings, and the sites for three others. The hospital at Richmond has done a good work and has a good prospect of securing a permanent building. The orphanage fund now amounts to \$1,500, the child's cot fund to \$225: aged and infirm elergy fund to \$2,000. The Howe grammar-school at Lima is steadily increasing in pupils, now numbering thirty, and there is encouraging assurance that Mrs. John B. Howe is about to erect a new height heighting for the securing of the school that Mrs. John B. Howe is about to erect a new brick building for the occupancy of the school, enlarging its capacity to fifty boarders. The Indianapolis institute for young ladies has had a prosperous year, enrolling fitty pupils. Its promise for the future is hopeful. Barker Hall, at Michigan City, has one hundred pupils, Major Gould's school, at Vincennes, fifty pupils. The endowment of the diocese has made great progress, \$35,000 having been subscribed, of which \$15,000 is paid in and invested. The which \$15,000 is paid in and invested. The diocese, for the first time in many years, is entirely free from indebtedness. About six thousand dollars has been paid off the past year from proceeds of the sale of real estate. The diocese has also a body of thirty-five lay readers, greatly aiding the clergy in their mission, Sunday school and parish work.

"A great many churches have been much improved the past year, and many have paid off old debts. Never has the diocese been in a more hopeful and promising condition. New churches are to be erected the coming year in Bloomington, Michigan City, Albion, Marion, Huntingdon and Knightstown."

Besides the work in Indiana, the bishop re-ported a large number of visitations in southern Ohio, of which he has had the care the past year, and where he has confirmed over three hundred. The bishop alluded feelingly to the death of Captain Sanzay, at Madison; Mrs. Kitty Miller, of Worthington; Mrs. Mary Kirby, of Muncie, and Mrs. Elizabeth Miller, of South Bend. He also spoke of the death of four of the bishops the past year-Stevens, of Pennsylvania; Elliott, of Texas; Dunlop, of New Mexico, and Brown, of Fond du Lac, and paid a fitting tribute to their Christian character. He gave notice to the convention that on the 12th of June he expected to sail for England in the Arizona, of the Guion line, to attend the Pan-Anglican Conference that meets on the 3d of July in Lambeth Palace, to continue in session through that month. The bishop expects to be

absent until Nov. 1.

At the close of the bishop's address the diocesan convention was organized, after services had been conducted by the Revs. Walter Scott, N. W. Heeman, A. George and E. Jenner. The Rev. Willis D. Engle was re-elected secretary, and the following standing committees were ap-

Real Estate for Sale

A beautiful farm of 55 acres, three miles southeast of the city, containing a comfortable dwelling in good repair, a large barn, a very productive apple orchard, a number of pear, peach, cherry and other fruit trees, several vorieties of grape vines, etc; most of the fencing new and remainder in good repair. I believe this is the very cheapest farm property on the
